		Project Name	Write Wave
		Test Designed By	Kartik Sharma
		Test Designed Date	3-13-2025
		Test Executed By	Kartik Shrama
		Test Executed Date	3-13-2025

Test Scenarion ID	Test Scenario	Category
TS-001	Verify that all links on the home page are functional.	Functional
TS-002	Verify that broken links return a proper error message.	Functional
TS-003	Verify that clicking the website logo redirects users to the home page.	Functional
TS-004	Verify that the navigation menu contains all expected links.	Functional
TS-005	Verify that the footer links navigate to the correct pages.	Functional
TS-006	Verify that clicking on the "Register" link redirects to the registration page.	Functional
TS-007	Verify that clicking on the "Login" link redirects to the login page.	Functional

	TS-008	Verify that the contact/support link leads to the correct support page.	Functional
	TS-009	Verify that the privacy policy and terms & conditions links open correctly.	Functional
	TS-010	Verify that external links open in a new tab (if applicable).	Functional
	TS-011	Verify that the registration page has a username, password, and signup button.	Functional
	TS-012	Verify that the username field accepts valid inputs.	Functional
	TS-013	Verify that the password field is masked while typing.	Security
	TS-014	Verify that clicking the "Signup" button without filling details shows an error message.	Validation
	TS-015	Verify that the password meets security requirements (e.g., length, special characters).	Security
	TS-016	Verify that an error message appears if the username is already taken.	Functional
	TS-017	Verify that users receive a confirmation email after successful registration.	Functional
	TS-018	Verify that users cannot register with an invalid email format.	Validation
	TS-019	Verify that users cannot register with a weak password.	Security
	TS-020	Verify that clicking "Signup" after entering valid details creates an account.	Functional
	TS-021	Verify that the login page has a username, password, and login button.	Functional

	TS-022	Verify that entering valid credentials logs the user in successfully.	Functional
	TS-023	Verify that an error message appears for incorrect username/password.	Validation
	TS-024	Verify that the login button is disabled until all required fields are filled.	Functional
	TS-025	Verify that the "Forgot Password" link is functional.	Functional
	TS-026	Verify that after multiple failed login attempts, an account gets temporarily locked.	Security
	TS-027	Verify that logged-in users are redirected to the dashboard/homepage.	Functional
	TS-028	Verify that users can log out successfully.	Functional
	TS-029	Verify that pressing "Enter" on the keyboard submits the login form.	Usability
	TS-030	Verify that the login page follows a consistent design with other pages.	UI/UX
	TS-031	Verify that the three-bar (hamburger) menu is present on mobile view.	UI/UX
	TS-032	Verify that clicking the three-bar menu expands the navigation options.	Functional
	TS-033	Verify that clicking outside the menu closes it.	Usability
	TS-034	Verify that the menu items match the options available in the full navigation bar.	Functional
	TS-035	Verify that all menu options are clickable and navigate correctly.	Functional

	TS-036	Verify that the hamburger menu is accessible via keyboard navigation.	Accessibility
	TS-037	Verify that the menu remains expanded when navigating through links inside it.	Functional
	TS-038	Verify that the menu closes automatically after selecting an option.	Usability
	TS-039	Verify that the menu icon is visible and responsive across all devices.	UI/UX
	TS-040	Verify that the menu follows a standard UI pattern (e.g., animation, positioning).	UI/UX
	TS-041	Verify that password fields on both login and signup pages have a "show/hide" toggle.	Usability
	TS-042	Verify that after successful registration, users are automatically logged in (if applicable).	Functional
	TS-043	Verify that login sessions remain active unless a user logs out manually.	Functional
	TS-044	Verify that a logged-in user cannot access the login/register page again.	Security
	TS-045	Verify that invalid login attempts do not expose user existence details.	Security
	TS-046	Verify that clicking "Back" on the browser after logout does not show the dashboard.	Security
	TS-047	Verify that error messages are user-friendly and do not expose sensitive information.	Security
	TS-048	Verify that login and registration pages load within an acceptable time frame.	Performance
	TS-049	Verify that login sessions time out after a period of inactivity.	Security

	TS-050	Verify that the site works well on different browsers and devices.	Compatibility
